

Designed for LED

Avery Dennison® 5600 LD Translucent Film

Translucent Film for backlit LED illuminated signs

Designed to meet the challenges of LED illuminated signage, Avery Dennison® 5600 LD Translucent Film series provide a simple single film solution - eliminating LED "hot spots" without the cost and complexity of additional diffuser film or pigmented acrylic sheet.

Having excellent light transmission and colour uniformity - even at close proximity to the light source - the optimum vibrant graphics are achieved. In addition to the 14 standard colours, a fast colour matching service is available with a minimum order quantity of just one roll - allowing end users to customize or match brand colours with the greatest of ease.

KEY FEATURES

- > 10-year durability - supported by ISC warranty
- > Excellent colour uniformity in reflected and transmitted light
- > High light transmission
- > Excellent plotting conversion properties
- > Excellent adhesion to a wide variety of substrates
- > Superior dimensional stability
- > One roll colour match service
- > Suitable for thermoforming

KEY BENEFITS

- > Lower complexity and cost, using a single film
- > Eliminates hot spots without additional diffuser film
- > Vibrant, uniform signage with efficient use of light & energy
- > Allows for thinner sign design
- > Increased design flexibility - deep draw thermoforming
- > One solution for either LED or fluorescent illuminated signs

RECOMMENDED USES

- > Graphics for LED illuminated signs and canopies
- > Window graphics and retail signage using LED lighting
- > Rigid or flexible substrates

Hotspot elimination with Cast Translucent LED
