# Avery Dennison® MPI<sup>™</sup> 2000 Series

# Premium long term solutions on slightly curved surfaces, including vehicle graphics

When you want digitally-printed, durable graphics that strike the right balance between performance and cost, the Avery Dennison® MPI<sup>™</sup> Intermediate Films and their matching DOL overlaminates are ideal for applications lasting between 3 and 5 years.

These versatile films can be applied over all kinds of flat surfaces and evensimple curves. Choose the option that best suits your needs: higher performance MPI 2000, or costefficient MPI 2800. You can also choose to add extra opacity (thanks to a high opacity face film), extended outdoor durability, and Avery Dennison Easy Apply<sup>™</sup> and Easy Apply<sup>™</sup> RS technology. There's a choice of adhesives to find the right product for the best application experience..

For a perfect partnership, use the matching protective DOL overlaminating film and give your application the finish - matt, gloss or lustre - required.

Architectural and Vehicle & Transportation Solutions Product Overview

(Eco)-Solvent, Superior

#### **KEY FEATURES**

#### MPI 2000 series

#### - High performance

- Maximum outdoor durability, up to 7 years unprinted and 5 years printed\*
- Covered by ICS Warranty Program
- Printable on all major platforms
- Matching overlaminates available
- Optional High opacity to conceal the surface below
- Easy Apply<sup>™</sup> and Easy Apply<sup>™</sup> RS solutions available - for simple, bubble-free, faster application available
- PE coated liner for reliable conversion

#### MPI 2800 series

- Balancing cost and performance
- Maximum outdoor durability, up to 7 years unprinted and 3 years printed\*
- Covered by ICS Warranty Program
- Printable on all major platforms
- Matching overlaminates available
- High opacity for superior coverage of underlying designs now available
- \* Printed and laminated, depending on ink type

High Opacity Hi-tack

#### RECOMMENDED USES

- Medium-life printed outdoor and indoor advertising and signage
- Printed vehicle graphic panels on flat and simply-curved surfaces

Repositionability

- Possible applications on challenging substrates such as PE or PU

Air egress

- Window graphics
